

WE HAVE 13, GOING ON FOURTEEN

MERLOT WINS AWARDS!

The universe has spoken, and it seems that the number 13 is our lucky number. And, given our **Lucky Monkey**, it's no surprise (more on him next Uncorked!). To date, Merlot Marketing has won 13 marketing awards this year alone! We're in good company, however.

There are also 13 major joints in the human body. The moon travels 13 degrees across the sky every day during its 13 lunar cycles in the solar year. However, as much as we like the number 13, we're being careful not to get too attached—our track record for success means we're already getting giddy about multiples of six. [Click here to see our awards from this year and last.](#)
